**DECLARATION AND PETITION OF FACTS IN SUPPORT
OF FILING ON BEHALF OF INVENTOR WHO REFUSES
TO SIGN OR CANNOT BE REACHED [37 CFR 1.47(b)]**

Dear Sir:

This declaration is made as to the facts that are relied upon to establish the diligent effort made to secure the execution of the declaration by the inventor for the above-identified patent application before deposit thereof in the Patent and Trademark Office.

I am an employee of Exxon Mobil Corporation and perform work on behalf of ExxonMobil Oil Corporation, a proprietary interest owner of the above-identified application.

The facts stated herein are based upon my personal knowledge and records maintained under my direction.

The inventor, Jean-Marc Francois, was an employee of Exxon Mobil Corporation at the time of invention and filing of the priority document for this application. However, Mr. Francois is no longer in the employ of Exxon Mobil Corporation. Immediately prior to his departure in 2003, the inventor refused to sign an assignment and indicated that he would not cooperate to sign any additional documents on behalf of his employer, ExxonMobil. Jean-Marc Francois' invention was invented and made under the direction of Exxon Mobil, within the conduct of his employment. Mr. Francois was under an obligation to assign the subject invention to the designated corporate affiliate, namely Exxon Mobil Oil Corporation. Thereby Exxon Mobil Corporation has a vested proprietary ownership interest in the subject invention and is filing this Declaration and Petition in support thereof.

A Declaration (newly drafted with the last known address for Mr. Jean-Marc Francois), Assignment, Application, and a pre-addressed, postage pre-paid return DHL envelope was sent to Jean-Marc Francois' last known address listed in our Law Department database at 12 Rue de Deauville, 54260 Longuyon, France, on July 29, 2004, via DHL courier. A copy of the Air Waybill and DHL tracking history, indicating attempted delivery, are enclosed herewith. We have learned that the statement "Recipient refused delivery" could also mean that the recipient has moved. We are continuing our efforts to locate him and will provide the Patent Office with any new information we uncover as soon as it's known. We have not received the signed documents as of this date, September 23, 2004.

This declaration is being made by the best available person having first-hand knowledge of the facts recited therein.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
